THINGS TO KNOW

1. The venue works on **commissions-free** with all suppliers and will only recommend those that have proven to be reliable. The venue however cannot be held responsible for third parties.
2. The venue provides the evening open bar service and the hiring of sound system equipment. It is not possible to remove these services. the covered porch will need additional lighting in the evening and the dancefloor lighting is only recommended.
3. Dancefloor location: the covered porch contains music and light and gives your dancefloor that funky vibe. Outdoor set-ups in the open terraces are not allowed simply because of sound travelling down the valley. Music can be projected to the ceremony terrace if you would like to have your first dance here or a chilled sunset vibe to begin the evening. This can be discussed with one of our managers, please enquire.
4. The hire of furniture and other elements in our hire catalogue are available and optional to our clients. Set up and breakdown is included in our price and no delivery charges apply.
5. If you are planning on having a child-friendly wedding please note that our kids maximum capacity is 8.
6. We do not provide wedding planning services but a manager can answer any questions you may have during your wedding planning period. We are only a call away. Visits can also be programmed on request.
7. Due to local sound restrictions, the latest an event can finish is 1 AM. At this time your bar and music must stop for guest departure.
8. Pre-booked transportation is mandatory at the end of the evening.
9. Prior to your wedding day the venue will require a copy of your wedding planned details. We will carefully run through these with you and give you any feedback of assistance.
10. For prices, please send us an email and we will work on a bespoke proposal for you. Together with this we will send you a copy of our terms and conditions that can be found on our events contract.
